

Preservationists:

Sharpening our skills or finding continuing education training (whether for ourselves or others) should be a high priority. To make this chore easier, I have compiled a list of activities in the Western United States or those that have special significance. Please take the time to review the list and follow the links. The following is a list of activities you should strongly consider participating in or send a delegate to represent your organization. There are many other training opportunities on the East Coast and if you need more information you can either follow the links or contact me specifically about your needs. The list is not comprehensive and you should check DAHP's website for updates. For more information contact Russell Holter 360-586-3533.

Fort Clatsop Community College in Astoria, Oregon, now offers a Certificate and an Associates Degree in Historic Preservation. For more information about their class offerings, please see their website.

March 19-20

**Theory and Technology of Historic Preservation**

Ritzville Center for Historic Preservation

Ritzville, WA
